New Hampshire Executive Council (OPEN LETTER) 107 North Main Street State House, Room 207 Concord, NH 03301

Fax: 603-271-3633 Email:gcweb@nh.gov

Attention: Joanne Ruel, Executive Assistant

RE: Attached Open Letter to Governor Sununu dated March 22, 2017; and, other matters concerning Public Corruption with respect to NH Department of Corrections, Forensic Evaluation Office, and NH Office of the Attorney General, and Belknap County Prosecutor pertaining to the October 13, 2009 Fax by the NH Department of Corrections to the Laconia District Court in re State v Jean Allan for criminal trespass on property located at 309 Waukewan Road, Center Harbor, NH that has been owned by Jean Allan and the Jean E Vorisek Family Trust since 1978; and, was illegally foreclosed on by Robin Arkley el al in September 2007; and, the status of the water rights to the High Birches Springs located on Route #3 North Woodstock, NH; and to open a cold case file on the Black Hearted killing of my Mother Agnes Sovik Allan, on March 22, 2001.

Dear Executive Council:

Although I have stated a personal conflict with the pending nomination of Gordon MacDonald, as New Hampshire Attorney General, the intent of this letter is to bring my family's ongoing global criminal complaints to the attention of the New Hampshire Executive Council. Why, should my family's situation fall under the jurisdiction of the Executive Council, you may ask? Two simple answers: the damage Model (estimated in the multimillions), if we are to prevail most likely will affect the reputation, and therefore the credit ratings of New Hampshire. And, more importantly my family's ability to develop a large amount of revenue and jobs, is within the scope and reach of the EC mandate.

As you can see from a review of my Open Letter to Governor Sununu, I have requested that an independent counsel be appointed to review all my family's charges and claims of Public Corruption against the State of New Hampshire, and its Court system. I also am on record with respect to many of my family's criminal charges that they are the jurisdiction of

the US DOJ and other Federal Agencies. And, to that issue, I would inform the EC that on August 21, 2009 the Office of Inspector General for the US DOJ referred many of my complaints which related to issues of my stolen identity, and violations of Title 18 and The Hobbs Act back to the US DOJ Criminal Divison. Additionally, I was informed by the OIG of US DOJ that certain of my complaints were also referred to US Social Security Administration, and US Department of State.

And, in June 2015, I was informed by Senator Rand Paul that he had taken steps to refer my stolen identity issues to the US DOJ Criminal Division. I was told that an Agent would be contacting me, but to date I have not been contacted by US DOJ. However, I do have an open and pending Appeal with SSA Appeals Council in Falls Church, VA. New Hampshire has the opportunity to become part of the solution, or remain liable for damages.

Both Federal and NH law and the facts are clear: in the matter of my competency, my due process rights have been violated and the violations have caused sever damage and hardships to myself, and my family. On the other RICO issues which ensnare certain Agents of the State of New Hampshire, and the New Hampshire Bar the fact set may be complex, but the motives for the crimes are very straight forward. Organized Criminals perpetrated a hostile takeover of my family's assets located in New Hampshire. To succeed the criminals captured certain NH State Agents and NH Bar Members to do their bidding. And, perhaps their intent was for NH Citizens to pick up the tab when the bill came due.

Well, the time is "ripe" and the bill is over due. It is my hope that the State of New Hampshire will act for the benefit of its taxpayers, and not for the special interests of the Organized Criminals. A non response to this letter will be interpreted as an affirmative position to cover for the Public Corrupted Agents.

Currently, I am out of the US visiting with family members. But, as I stated in my Open Letter to Governor Sununu, I would be available to meet with designated members of the EC at your convenience. Conversations can either begin with Skype interviews, at first, and/or in person in New Hampshire as long as my personal safety can be guaranteed, and I can leave freely of my own will. If, the EC would be interested in some background information, I wrote a series of installments titled No Witness = No Case that has been posted on nhjustice.net. I have also posted public documents of my family's situation on nhjustice.net High Birches Springs, and on my Face Book Page Jeanie Allan.

With Respect,

Jean E. Allan fka Jean Vorisek Quinn
