Subject: Your Recusal from my Title X Inquiry into Public Corruption by Agents of the State of New Hampshire and its Officers of the Court; with specific detail into the actions taken by the NH Department of Corrections prior to and after October 13, 2009 when its Office of Forensic Evaluations faxed, in part, its Diagnosis that I was 'not competent' to stand trial in re: State v Jean Allan, for Misdemeanor Trespass onto property located at 309 Waukewan Road, Center Harbor, NH. A material document in evidence (1989 so called Stipulated Judgment) against me was created by Attorney Daniel Sklar, and in cahoots with Norman Sthal and Karen McGinley of Devine Millimet Stahl and Branch, and also necessitated the cooperation of the Shaheen Gordon Law Firm. The Stipulation Agreement was a forgery. (A meeting with Attorney David Nixon confirmed the conflict with his firm.)

Dear Attorney General MacDonald:

To provide you with some background, I have attached my October 20, 2013 letter to Belknap Attorney Guldbransen in which I copied NH AG Joseph Foster. The NH AG Office promply responded. You can review his November 2013 letter in my file. You can also review several of my online posts located at nhjustice.net in the High Birches Springs section, and in a series of installments title No Witness = No Case. Also, I have posted extensively on my FB page Jeanie Allan.

The Office of NH Attorney General made at least two factual errors in the November 2013 response letter to the herein attached letter. The first factual error was the assumption that just because I was visiting friends in Panama, I was born in Margarita Panama Canal Zone, that I was a permanent resident of Panama, and no longer entitle to my Constitutional rights as a United States Citizen. The letter also made claims that New Hampshire had sole jurisdiction over my competency issue, and therefore, I would remain legally not competent as long as New Hampshire deemed fit. I wrote strong objections to

New Hampshire's legal position, but to no avail. Now you are the new "Top Cop". And, if you have read my recent letter to NH Governor Chris Sununu, you should recognize immediately that you have a conflict of interest in the pursuit of Justice for my family. In fact, the entire NH DOJ is conflicted considering that my complaints span several decades and include several prior administrations, from both sides of the political aisle. The malfeasance of duty to protect and serve my family are well documented, to include the 'black hearted' killing of my Mother Agnes Sovik Allan, who died and her body was disappeared while in the jurisdiction of Agent Kelly Ayotte, on or about April 22, 2001.

Therefore, I would request that you refer my family's complaints to include my personal Title X complaints to the US DOJ Criminal Division in Washington, DC. They have an ongoing and open file on my situation. A referral was sent to US DOJ Criminal Division by its Office of Inspector General on August 21, 2009. And, subsequent to that Senator Rand Paul informed me that he sent my specific complaints about my Identity Theft issues to the US DOJ Criminal Division in June 2015. Additionally, the OIG US DOJ had also, in August 2009, referred my Stolen Identity issues to US Department of State OIG and to the OIG of the Social Security Administration.

As you will note when you do a background search on my family, you will see that our damage model is huge. And, Justice Delayed is Justice Denied. But, a clear reading of NH Title X would show you that I am entitled to my day in court, and one way or another, I will find someone with the Political Will to allow me to prove all the frauds upon the courts, both State and Federal dating back to October 12, 1989, and your Nixon Peabody Partner, Attorney Daniel Sklar.

As I have written in my recent letters, I can be reached at the addresses above. Currently, I am out of the US visiting family, but I can make arrangements to go to NH as long as my safe passage can be affirmed by your office.

With Respect, Jean E. Allan
